

The diagram illustrates the Xen VMM architecture. It is contained within a dashed yellow border. At the top, there are two boxes: a yellow box on the left labeled 'Dom0' and an orange box on the right labeled 'domU'. The 'domU' box contains the text 'Hosting a Web App' and 'Tool to measure Web App Performance'. Below these boxes are three light blue boxes: 'Socket I' on the left, '.....' in the center, and 'Socket VIII' on the right. Below these three boxes is a green horizontal bar labeled 'Xen VMM'. At the bottom is a light blue horizontal bar labeled 'Hardware'.
